

Mobile Vaccine Clinics & Vaccine Tracking System

With COVID variants always evolving, employers need to keep up with vaccine and testing requirements to keep their workplace continuously open and safe.

Vital Check provides an organized solution to help you bring your employees back to the office safely with our **medical services / vaccine tracker / security module system** – all physician led!

OUR SERVICES

Employees fill out the vaccine tracker to share vaccine status and overall health.

COVID testing (at home / onsite) – PCR and rapid testing for contractors, vendors, visitors and employees.

Mobile vaccine delivered by VitalCheck medical staff to your office locations. We provide COVID vaccines, booster shots and flu shots on site.

Security module to secure office site via badging system.

Customizable dashboard for leadership team to track latest data.

We keep your company up-to-date and compliant with the latest workplace requirements for COVID safety.

Our system will guide your organization through the latest vaccine protocols and continuously keep your worksite open and safe.

Notable companies like Gucci, Nomura Securities and Fordham University have entrusted Vital Check with their employee's wellbeing.
